

# International Experience – **Local Solutions for your Environment**

An international leader in the environmental sector, Urbaser operates more than **60** waste management facilities worldwide and processes around **7 million** tonnes of waste every year.

*Madrid waste management facility, Urbaser*

We currently operate eight Energy-from-Waste facilities and have applied our expertise and knowledge in our proposals for **Javelin Park**. We are looking to further develop our proposals in partnership with the people of **Gloucestershire** to develop plans for a community asset you can be proud of.

Employing more than **34,000** people, we provide reliable and sustainable waste management services for more than **50 million** people worldwide.

*EnviroSort, Worcestershire, Urbaser*

# Our commitments

## To the environment:

We constantly strive to reduce the environmental impact of the waste we manage for communities across the world. We invest in research and development to provide the most sustainable solutions. We develop facilities that are sympathetic to the environment and operate them according to the highest standards in environmental protection. We aim to recover the maximum amount of material and energy from each of our waste treatment plants. **If you would like to find out more please get in touch.**

## To the communities we serve:

Urbaser's reputation is built upon trust and cooperation with the communities we serve, leading to fair and long-lasting relationships. Our approach means we work with our clients, our customers, and our neighbours to develop bespoke waste management solutions that meet the needs of the community. We have a positive approach towards community involvement, believing that the best solutions come from a partnership approach. **If you would like to become involved in the proposals for Javelin Park please get in touch.**

## To the people who work for us:

Our highly trained, knowledgeable staff are fundamental to our business. They share our passion for environmental issues, enabling us to stay at the forefront of the environmental services industry. With a culture of continuous learning we ensure all personnel have the most up to date training to work with the latest technologies. **If you would like to work with us at Urbaser please get in touch.**
